## Chapter 1

# Looking Glass

This project is an Augmented Reality map system. It is currently implemented with a PHP/MYSQL back-end database with markers focused on Ithaca College. The project is intended for the Ithaca College App competition.

## Chapter 2

# Hierarchical Index

### 2.1 Class Hierarchy

This inheritance list is sorted roughly, but not completely, alphabetically:

ARDetailedViewController()	8
ARView()	10
<CLLocationManagerDelegate>	
ARView	9
VirtTourViewController	25
JKBuffer	14
JKConstBuffer	14
JKConstPtrRange	14
JKEncodeCache	16
JKEncodeState	16
JKFastClassLookup	16
JKHashTableEntry	17
JKManagedBuffer	17
JKObjCImpCache	17
JKObjectStack	17
JKParseState	18
JKParseToken	18
JKPtrRange	18
JKRange	19
JKTokenCache	19
JKTokenCacheItem	20
JKTokenValue	20
JSONDecoder	20
<MKAnnotation>	
Annotation	7
<MKMapViewDelegate>	
ARMarker	9
VirtTourViewController	25
<MKOverlay>	
MapOverlay	21
MKOverlayView	
MapOverlayView	21
NSArray(JSONKitSerializing)	21
<NSCopying>	
JKArray	13
JKDictionary	15
NSData(JSONKitDeserializing)	22
NSDictionary(JSONKitSerializing)	22

NSEnumerator	
JKDictionaryEnumerator . . . . .	15
<NSFastEnumeration>	
JKArray . . . . .	13
JKDictionary . . . . .	15
NSMutableArray	
JKArray . . . . .	13
<NSMutableCopying>	
JKArray . . . . .	13
JKDictionary . . . . .	15
NSMutableDictionary	
JKDictionary . . . . .	15
NSObject	
Annotation . . . . .	7
DBWrapper . . . . .	11
JKSerializer . . . . .	19
MapOverlay . . . . .	21
PlaceOfInterest . . . . .	22
<NSObject>	
<detailViewControllerDelegate> . . . . .	13
ARDetailedViewController . . . . .	7
<detailViewControllerDelegate> . . . . .	13
<settingsViewControllerDelegate> . . . . .	23
VirtTourSettingsViewController . . . . .	24
NSString(JSONKitDeserializing) . . . . .	22
NSString(JSONKitSerializing) . . . . .	22
<UIApplicationDelegate>	
VirtTourAppDelegate . . . . .	23
UIResponder	
VirtTourAppDelegate . . . . .	23
UITableViewController	
ARDetailedViewController . . . . .	7
VirtTourSettingsViewController . . . . .	24
UIView	
ARMarker . . . . .	9
ARView . . . . .	9
UIViewController	
VirtTourViewController . . . . .	25
VirtTourWebViewController . . . . .	27
VirtTourSettingsViewController() . . . . .	25
VirtTourViewController() . . . . .	27
VirtTourWebViewController() . . . . .	28

## Chapter 3

# Data Structure Index

### 3.1 Data Structures

Here are the data structures with brief descriptions:

Annotation	7
ARDetailedViewController	7
ARDetailedViewController()	8
ARMarker	9
ARView	
Describes an AR View	9
ARView()	10
DBWrapper	11
<detailViewControllerDelegate>	13
JKArray	13
JKBuffer	14
JKConstBuffer	14
JKConstPtrRange	14
JKDictionary	15
JKDictionaryEnumerator	15
JKEncodeCache	16
JKEncodeState	16
JKFastClassLookup	16
JKHashTableEntry	17
JKManagedBuffer	17
JKObjCImpCache	17
JKObjectStack	17
JKParseState	18
JKParseToken	18
JKPtrRange	18
JKRange	19
JKSerializer	19
JKTokenCache	19
JKTokenCacheItem	20
JKTokenValue	20
JSONDecoder	20
MapOverlay	21
MapOverlayView	21
NSArray(JSONKitSerializing)	21
NSData(JSONKitDeserializing)	22
NSDictionary(JSONKitSerializing)	22
NSString(JSONKitDeserializing)	22
NSString(JSONKitSerializing)	22

PlaceOfInterest	
Describes a place of interest	22
<settingsViewControllerDelegate>	23
VirtTourAppDelegate	23
VirtTourSettingsViewController	24
VirtTourSettingsViewController()	25
VirtTourViewController	25
VirtTourViewController()	27
VirtTourWebViewController	
View controller for the web view	27
VirtTourWebViewController()	28

## Chapter 4

# Data Structure Documentation

### 4.1 Annotation Class Reference

Inheritance diagram for Annotation:

#### Instance Methods

- (id) - **initWithCoordinates:title:subTitle:**
- (id) - **initWithCurrentLocation:title:subTitle:**

#### Properties

- NSString \* **title**
- NSString \* **subtitle**
- CLLocationCoordinate2D **coordinate**
- CLLocation \* **myLocation**

The documentation for this class was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/Annotation.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/Annotation.m

### 4.2 ARDetailedViewController Class Reference

Inheritance diagram for ARDetailedViewController:

## Instance Methods

- (void) - [setCellDataWithName:andImageName:andText:](#)

*lets parent set the data in this view*

## Properties

- IBOutlet UITextView \* [textView](#)  
*ref to the text view*
- IBOutlet UIWebView \* [webView](#)  
*ref to the web view which displays the image*
- [ARMarker](#) \* [delegate](#)  
*ref to the [ARMarker](#) for the building for which this detailed view was invoked*

### 4.2.1 Method Documentation

4.2.1.1 - (void) [setCellDataWithName:](#) (NSString \*) *name* and [imageName:\(NSString \\*\) imageName](#) and [text:\(NSString \\*\) text](#)

lets parent set the data in this view

#### Parameters

<i>name</i>	the name of the building
<i>imageName</i>	name of the image. Without extension, extension assumed to be PNG
<i>text</i>	the text to be shown. Straight from the DB

Reimplemented from [<detailViewControllerDelegate>](#).

The documentation for this class was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/ARDetailedViewController.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/ARDetailedViewController.m

## 4.3 ARDetailedViewController() Category Reference

The documentation for this category was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/ARDetailedViewController.m

## 4.4 ARMarker Class Reference

Inheritance diagram for ARMarker:

### Instance Methods

- (id) - **initWithImage:andTitle:**
- (id) - **initWithImage:andTitle:showDistance:**
- (void) - **expandInfoView**

### Properties

- UIImageView \* **infoView**
- UIButton \* **expandViewButton**
- UILabel \* **titleLabel**
- UIButton \* **labelButton**
- UIImageView \* **markerImage**
- CLLocation \* **userLocation**
- BOOL **expanded**
- [VirtTourViewController](#) \* **parent**
- NSInteger **rowId**
- NSString \* **name**

The documentation for this class was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/ARMarker.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/ARMarker.m

## 4.5 ARView Class Reference

describes an AR View

```
#import <ARView.h>
```

Inheritance diagram for ARView:

### Instance Methods

- (void) - **start**
- (void) - **stop**

## Properties

- NSArray \* **placesOfInterest**
- int \*\* **placesArray**

*used to figure out when labels overlap. Is a simple 2d array for speed*

### 4.5.1 Detailed Description

describes an AR View

#### Author

Jason Debottis, Adeesha Ekanayake

The documentation for this class was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/ARView.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/ARView.m

## 4.6 ARView() Category Reference

### Instance Methods

- (void) - **initialize**
- (void) - **startCameraPreview**
- (void) - **stopCameraPreview**
- (void) - **startLocation**
- (void) - **stopLocation**
- (void) - **startDeviceMotion**
- (void) - **stopDeviceMotion**
- (void) - **startDisplayLink**
- (void) - **stopDisplayLink**
- (void) - **updatePlacesOfInterestCoordinates**
- (void) - **onDisplayLink:**
- (void) - **locationManager:didUpdateToLocation:fromLocation:**

### Protected Attributes

- UIView \* **captureView**
- AVCaptureSession \* **captureSession**
- AVCaptureVideoPreviewLayer \* **captureLayer**
- CADisplayLink \* **displayLink**
- CMMotionManager \* **motionManager**
- CLLocationManager \* **locationManager**
- CLLocation \* **location**
- NSArray \* **placesOfInterest**
- mat4f\_t **projectionTransform**
- mat4f\_t **cameraTransform**
- vec4f\_t \* **placesOfInterestCoordinates**

The documentation for this category was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/ARView.m

## 4.7 DBWrapper Class Reference

Inheritance diagram for DBWrapper:

### Instance Methods

- (NSArray \*) - [getAllBuildingsWithCallback:](#)  
*returns an array with all the buildings in the database*
- (NSDictionary \*) - [getRowWithRowId:andCallback:](#)  
*returns a dictionary with a row corresponding to the id*
- (NSDictionary \*) - [getTextWithRowId:andCallback:](#)  
*gets the text description for a given entry*
- (NSString \*) - [getHTTPDataWithUrl:](#)  
*conducts an http request and returns the response*
- (NSString \*) - [getHTTPDataWithUrl:andCallback:](#)  
*conducts an http request and returns the response*
- (NSArray \*) - [parseJSONToArray:](#)  
*parses the string and returns a JSON array*
- (NSDictionary \*) - [parseJSONToDict:](#)  
*parses the string and returns a JSON dictionary*

### 4.7.1 Method Documentation

#### 4.7.1.1 - (NSArray \*) [getAllBuildingsWithCallback:](#) (void) *errorCallback*

returns an array with all the buildings in the database

#### Returns

array with the buildings. Element is a dictionary

#### 4.7.1.2 - (NSString\*) [getHTTPDataWithUrl:](#) (NSString \*) *url*

conducts an http request and returns the response

#### Parameters

<i>url</i>	url destination of the http request
------------	-------------------------------------

**Returns**

the http response

**4.7.1.3 - (NSString \*) getHTTPDataWithUrl: (NSString\*) url andCallback:(void) errorCallback**

conducts an http request and returns the response

**Parameters**

<i>url</i>	url destination of the http request
<i>andCallback</i>	callback executed on http request error

**Returns**

the http response

**4.7.1.4 - (NSDictionary \*) getRowWithRowId: (NSInteger) rowId andCallback:(void) errorCallback**

returns a dictionary with a row corresponding to the id

**Parameters**

<i>rowId</i>	the id of the row
--------------	-------------------

**Returns**

a dictionary with the data in a row

**4.7.1.5 - (NSDictionary \*) getTextWithRowId: (NSInteger) rowId andCallback:(void) errorCallback**

gets the text description for a given entry

**Parameters**

<i>rowId</i>	the row id for the entry
--------------	--------------------------

**Returns**

the text description

**4.7.1.6 - (NSArray \*) parseJSONToArray: (NSString\*) dataString**

parses the string and returns a JSON array

**Parameters**

<i>dataString</i>	string to parse into JSON
-------------------	---------------------------

**Returns**

an array with the JSON data

## 4.7.1.7 - (NSDictionary \*) parseJSONToDict: (NSString \*) dataString

parses the string and returns a JSON dictionary

## Parameters

<i>dataString</i>	the string to parse into JSON
-------------------	-------------------------------

## Returns

a dictionary with the JSON data

The documentation for this class was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/DBWrapper.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/DBWrapper.m

## 4.8 &lt;detailViewControllerDelegate&gt; Protocol Reference

Inheritance diagram for <detailViewControllerDelegate>:

## Instance Methods

- (void) - **setCellDataWithName:andImageName:andText:**
- (void) - **setCellDataWithName:andImageName:andText:**

The documentation for this protocol was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/ARMarker.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourViewController.h

## 4.9 NSArray Class Reference

Inheritance diagram for NSArray:

### Protected Attributes

- id \* **objects**
- NSInteger **count**
- NSInteger **capacity**
- NSInteger **mutations**

The documentation for this class was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.10 JKBuffer Struct Reference

### Protected Attributes

- [JKPtrRange](#) **bytes**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.11 JKConstBuffer Struct Reference

### Protected Attributes

- [JKConstPtrRange](#) **bytes**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.12 JKConstPtrRange Struct Reference

### Protected Attributes

- const unsigned char \* **ptr**
- size\_t **length**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.13 JKDictionary Class Reference

Inheritance diagram for JKDictionary:

### Protected Attributes

- NSUInteger **count**
- NSUInteger **capacity**
- NSUInteger **mutations**
- [JKHashTableEntry](#) \* **entry**

The documentation for this class was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.14 JKDictionaryEnumerator Class Reference

Inheritance diagram for JKDictionaryEnumerator:

### Instance Methods

- (id) - **initWithJKDictionary:**
- (NSArray \*) - **allObjects**
- (id) - **nextObject**

### Protected Attributes

- id **collection**
- NSUInteger **nextObject**

The documentation for this class was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.15 JKEncodeCache Struct Reference

### Protected Attributes

- id **object**
- size\_t **offset**
- size\_t **length**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.16 JKEncodeState Struct Reference

### Protected Attributes

- [JKManagedBuffer](#) **utf8ConversionBuffer**
- [JKManagedBuffer](#) **stringBuffer**
- size\_t **atIndex**
- [JKFastClassLookup](#) **fastClassLookup**
- [JKEncodeCache](#) **cache** [JK\_ENCODE\_CACHE\_SLOTS]
- JKSerializeOptionFlags **serializeOptionFlags**
- JKEncodeOptionType **encodeOption**
- size\_t **depth**
- NSError \* **error**
- id **classFormatterDelegate**
- SEL **classFormatterSelector**
- JKClassFormatterIMP **classFormatterIMP**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.17 JKFastClassLookup Struct Reference

### Protected Attributes

- void \* **stringClass**
- void \* **numberClass**
- void \* **arrayClass**
- void \* **dictionaryClass**
- void \* **nullClass**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.18 JKHashTableEntry Struct Reference

### Protected Attributes

- NSUInteger **keyHash**
- id **key**
- id **object**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.19 JKManagedBuffer Struct Reference

### Protected Attributes

- JKPtrRange **bytes**
- JKManagedBufferFlags **flags**
- size\_t **roundSizeUpToMultipleOf**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.20 JKObjCImpCache Struct Reference

### Protected Attributes

- Class **NSNumberClass**
- NSNumberAllocImp **NSNumberAlloc**
- NSNumberInitWithUnsignedLongLongImp **NSNumberInitWithUnsignedLongLong**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.21 JKObjectStack Struct Reference

### Protected Attributes

- void \*\* **objects**
- void \*\* **keys**
- CFHashCode \* **cfHashes**
- size\_t **count**
- size\_t **index**
- size\_t **roundSizeUpToMultipleOf**
- JKObjectStackFlags **flags**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.22 JKParseState Struct Reference

### Protected Attributes

- JKParseOptionFlags **parseOptionFlags**
- JKConstBuffer **stringBuffer**
- size\_t **atIndex**
- size\_t **lineNumber**
- size\_t **lineStartIndex**
- size\_t **prev\_atIndex**
- size\_t **prev\_lineNumber**
- size\_t **prev\_lineStartIndex**
- JKParseToken **token**
- JKObjectStack **objectStack**
- JKTokenCache **cache**
- JKObjCImpCache **objCImpCache**
- NSError \* **error**
- int **errorIsPrev**
- BOOL **mutableCollections**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.23 JKParseToken Struct Reference

### Protected Attributes

- JKConstPtrRange **tokenPtrRange**
- JKTokenType **type**
- JKTokenValue **value**
- JKManagedBuffer **tokenBuffer**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.24 JKPtrRange Struct Reference

### Protected Attributes

- unsigned char \* **ptr**
- size\_t **length**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.25 JKRange Struct Reference

### Protected Attributes

- `size_t location`
- `size_t length`

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.26 JKSerializer Class Reference

Inheritance diagram for JKSerializer:

### Instance Methods

- (id) - **serializeObject:options:encodeOption:block:delegate:selector:error:**
- (void) - **releaseState**

### Class Methods

- (id) + **serializeObject:options:encodeOption:block:delegate:selector:error:**

### Protected Attributes

- `JKEncodeState` \* **encodeState**

The documentation for this class was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.27 JKTokenCache Struct Reference

### Protected Attributes

- `JKTokenCacheItem` \* **items**

- `size_t` **count**
- unsigned int **prng\_lfsr**
- unsigned char **age** [JK\_CACHE\_SLOTS]

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.28 JKTokenCachelItem Struct Reference

### Protected Attributes

- void \* **object**
- JKHash **hash**
- CFHashCode **cfHash**
- `size_t` **size**
- unsigned char \* **bytes**
- JKValueType **type**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.29 JKTokenValue Struct Reference

### Protected Attributes

- [JKConstPtrRange](#) **ptrRange**
- JKValueType **type**
- JKHash **hash**
- union {
  - long long **longLongValue**
  - unsigned long long **unsignedLongLongValue**
  - double **doubleValue**
 } **number**
- [JKTokenCachelItem](#) \* **cachelItem**

The documentation for this struct was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.30 JSONDecoder Class Reference

The documentation for this class was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

## 4.31 MapOverlay Class Reference

Inheritance diagram for MapOverlay:

### Instance Methods

- (MKMapRect) - **boundingMapRect**

### Properties

- CLLocationCoordinate2D **coordinate**

The documentation for this class was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/MapOverlay.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/MapOverlay.m

## 4.32 MapOverlayView Class Reference

Inheritance diagram for MapOverlayView:

The documentation for this class was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/MapOverlayView.h

## 4.33 NSArray(JSONKitSerializing) Category Reference

The documentation for this category was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

### 4.34 NSData(JSONKitDeserializing) Category Reference

The documentation for this category was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

### 4.35 NSDictionary(JSONKitSerializing) Category Reference

The documentation for this category was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

### 4.36 NSString(JSONKitDeserializing) Category Reference

The documentation for this category was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

### 4.37 NSString(JSONKitSerializing) Category Reference

The documentation for this category was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/JSONKit.m

### 4.38 PlaceOfInterest Class Reference

describes a place of interest

```
#import <PlaceOfInterest.h>
```

Inheritance diagram for PlaceOfInterest:

#### Class Methods

- ([PlaceOfInterest](#) \*) + **placeOfInterestWithView:at:**

#### Properties

- UIView \* **view**
- CLLocation \* **location**

### 4.38.1 Detailed Description

describes a place of interest

#### Author

Jason Debottis, Adeesha Ekanayake

The documentation for this class was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/PlaceOfInterest.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/PlaceOfInterest.m

## 4.39 <settingsViewControllerDelegate> Protocol Reference

Inheritance diagram for <settingsViewControllerDelegate>:

### Instance Methods

- (void) - **setMapType:**
- (void) - **resetData**

The documentation for this protocol was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourViewController.h

## 4.40 VirtTourAppDelegate Class Reference

Inheritance diagram for VirtTourAppDelegate:

### Properties

- UIWindow \* [window](#)  
*reference to window*

- [VirtTourViewController](#) \* [viewController](#)  
*reference to the view controller*

The documentation for this class was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourAppDelegate.h

## 4.41 VirtTourSettingsViewController Class Reference

Inheritance diagram for VirtTourSettingsViewController:

### Instance Methods

- (IBAction) - [changeMapType:](#)  
*changes the map type in the parent view*
- (IBAction) - [changeBuildingSetting:](#)  
*changes the building types displayed in the parent view*

### Properties

- [VirtTourViewController](#) \* [delegate](#)  
*ref to the parent detail view controller*
- NSArray \* [typesArray](#)  
*copy of the parent array where types displayed are mapped to a bool*

### 4.41.1 Method Documentation

#### 4.41.1.1 - (IBAction) changeBuildingSetting: (id) sender

changes the building types displayed in the parent view

#### Parameters

<i>sender</i>	ref to sender
---------------	---------------

#### 4.41.1.2 - (IBAction) changeMapType: (UISegmentedControl\*) sender

changes the map type in the parent view

## Parameters

<i>sender</i>	ref to sender
---------------	---------------

The documentation for this class was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourSettingsViewController.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourSettingsViewController.m

## 4.42 VirtTourSettingsViewController() Category Reference

The documentation for this category was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourSettingsViewController.m

## 4.43 VirtTourViewController Class Reference

Inheritance diagram for VirtTourViewController:

### Instance Methods

- (void) - [httpError](#)  
*called when [DBWrapper](#) throws a connection error*
- (void) - [showDetailedViewWithRowId:](#)  
*shows a detailed view*
- (void) - [showCurrentlySelectedDetailedView](#)  
*shows currently selected detailed view*
- (void) - [showSettingsView](#)  
*shows settings view*
- (float) - [MetersToMiles:](#)  
*meters to miles*
- (void) - [setMapType:](#)  
*lets settings view change map type*
- (void) - [resetData](#)  
*lets settings view reset the data displayed the settings view changes the contents of the buildingTypes, which affects the types of buildings shown. This method resets the data displayed in the [ARView](#) and the mapView so that only the new types selected will be displayed.*

## Properties

- [MapOverlay](#) \* **mapOverlay**
- [MapOverlayView](#) \* **mapOverlayView**
- [VirtTourWebViewController](#) \* **webView**
- MKMapView \* **theMapView**
- MKUserLocation \* **userLocation**
- CMMotionManager \* **manager**
- CLLocationManager \* **locationManager**
- [DBWrapper](#) \* [myDBWrapper](#)  
*instance of [DBWrapper](#) class. Allows convenient connection to database*
- NSArray \* [buildings](#)  
*each line corresponds to a building in the database*
- NSMutableDictionary \* [nameToID](#)  
*lets you convert a name id to a row id. Useful since dicts don't work backwards*
- NSMutableDictionary \* [buildingTypesDisplay](#)  
*a dict with the types of buildings mapped to a boolean the types are all from the database, and the booleans are wrapped in NSNumbers to allow them to be inserted in the dict*
- NSMutableArray \* [buildingNames](#)  
*an array of the building names. Deprecate?*
- BOOL **ARViewDisplayed**

### 4.43.1 Method Documentation

#### 4.43.1.1 - (float) MetersToMiles: (CGFloat) meters

meters to miles

##### Parameters

<i>meters</i>	value in meters
---------------	-----------------

##### Returns

value in miles

#### 4.43.1.2 - (void) resetData

lets settings view reset the data displayed the settings view changes the contents of the buildingTypes, which affects the types of buildings shown. This method resets the data displayed in the [ARView](#) and the mapView so that only the new types selected will be displayed.

##### Attention

this messes up the pin colors: fix

#### 4.43.1.3 - (void) setMapType: (MKMapType) mapType

lets settings view change map type

##### Parameters

<i>mapType</i>	type of the map (Hybrid, standard, satmap)
----------------	--

## 4.43.1.4 - (void) showDetailedViewWithRowId: (NSInteger) rowId

shows a detailed view

## Parameters

<i>rowId</i>	id of the row in the database
--------------	-------------------------------

The documentation for this class was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourViewController.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourViewController.m

## 4.44 VirtTourViewController() Category Reference

The documentation for this category was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourViewController.m

## 4.45 VirtTourWebViewController Class Reference

view controller for the web view

```
#import <VirtTourWebViewController.h>
```

Inheritance diagram for VirtTourWebViewController:

## Instance Methods

- (IBAction) - **goBack:**
- (id) - **initWithNibName:bundle:andURL:**

## Properties

- IBOutlet UIWebView \* **campusWebView**
- IBOutlet UIToolbar \* **backBarButton**
- NSURL \* **theURL**
- NSURLRequest \* **theURLReq**

## 4.45.1 Detailed Description

view controller for the web view

**Author**

Jason Debottis, Adeesha Ekanayake

The documentation for this class was generated from the following files:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourWebViewController.h
- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourWebViewController.m

## 4.46 VirtTourWebViewController() Category Reference

The documentation for this category was generated from the following file:

- /Users/adeeshaek/Documents/Programming/Engineering/App\_contest/ICVirtTourApp/ICVirtTourApp/ICVirt-CampusTour/VirtTourWebViewController.m
